Leather

UNITHANE AB-M NF is a blend of waterborne aromatic and aliphatic NMP-free polyurethanes used to improve the adhesion of finish coats on leathers. UNITHANE AB-M NF has excellent adhesion promoting properties along with low surface tack, that make it ideal for use on oily or water repellent leathers where adhesion is a problem. UNITHANE AB-M NF is a modified version of UNITHANE AB, for improved adhesion over waterproof leathers.
